Name of person entering data: Zane Kratzer

Notes about variable: All sources found on PDE's website, under PreK-12 Schools Statistics. The data was limited to public school districts only. The term

"dropout," as used in this

publication, refers to a student who, for any reason except death, leaves school before graduation without

transferring to another school/institution. The term DROPOUT RATE refers to an annual or "event" rate that measures the proportion of students enrolled who

drop out during a single school year. The total number of dropouts for the school year is divided by the fall enrollment for the same year.
