VARIABLE NO: 36

Variable Code: ed22032005

Category: Education

Topic: Public School Characteristics

Unit: School District

Year: 2005

Variable Label: Percentage of Enrollment from Low-Income Families

Exact wording of the question:

Exact meaning of the datum: Percent of Total Enrollment that lives with a Low-Income Family

Universe - who was asked the question: Public (non-Charter) Schools Only

Missing data:

Details on constructed variables: Percentage for County calculated by taking the percentages for each school district and multiplying by the total enrollment to find out total number of students for each district. Then the total numbers were added to create a total number by County, which was divided by the County's total enrollment to find a Percentage of Low-Income by County.

Name of person entering data: Zane Kratzer  
Notes about variable: All sources found on PDE's website, under PreK-12 Schools Statistics. The data was limited to public school districts only. The term "dropout," as used in this publication, refers to a student who, for any reason except death, leaves school before graduation without transferring to another school/institution. The term DROPOUT RATE refers to an annual or "event" rate that measures the proportion of students enrolled who drop out during a single school year. The total number of dropouts for the school year is divided by the fall enrollment for the same year.
